CAPTAIN H. A. SMITH.

His Contemplated Removal with his Family to Rockford.

We find in Tuesday's Rockford Gazette, the following concerning Captain H. A. Smith, and the proposed new morocco factory in that city: "We will soon have a full-fledged morocco factory running in this city. Captain Smith, of Janesville, Wis., well known in this city as the commanding officer of the Janesville Guards, has been here for the past week consulting with our capitalists in relation to forming a stock company for the manufacture of the above article. He is as yet undecided whether he will make the company an incorporated one or whether he will conduct the business as a private enterprise. He has propositions from several parties, and will decide in a few days either one way or the other. One thing is quite certain, he intends removing to this city and engaging in the morocco business."

"Mr. Smith has resided in Janesville for sixteen years, and has been engaged most of this time in the boot and shoe business. A morocco factory was started in that city in 1878; during the past year he has had the charge of it, and having done so well has decided to embark in the business himself, with the assistance of others. The captain stated to the Gazette representative that there were no morocco factories of any account west of New York and Pennsylvania. The skins which are used in the business come from Colorado mostly, and are sent east to be properly treated. As there are a large number of boot and shoe factories established in the west with prospects of more, he thinks the enterprise would be a paying one."

"Yesterday he visited a building on South Water street, east side, south of the boiler works, and is soon to negotiate for it, for his use. He can secure better and cheaper railroad facilities in this city than in Janesville, and can purchase his coal cheaper. The rents are higher here than in the Badger state, but the captain stated that the difference in freight and coal would pay all running expenses in the factory."

"The arrangements have all been perfected, and the business will be conducted under the firm name of Smith & Fisher. (Frank P. Fisher). The building will be occupied as stated above and the factory started by April 1st. By this move Janesville loses an honored citizen and family which is added to Rockford's population."

Messrs. James Shearer and M. L. Williamson have purchased the Janesville factory, and will take possession on the first of April, and will continue the morocco business.

Show of Stock and Agricultural Implements.

Some of our leading stock owners and agricultural implement dealers are now agitating and canvassing for a grand exhibition of stock and agricultural implements, to take place in June next, on the grounds of the Rock county agricultural society. The project is meeting with considerable favor from all classes, and the officers of the county agricultural society are perfectly willing to take hold of the matter and carry out all the minor details just as soon as the support of a sufficient number of stock raisers and implement dealers can be secured to make the exhibition a success. It has been very definitely settled that Janesville will be included in the great June circuit or turf meeting, and that we will have a grand meeting of this kind in June, and the movers in the stock and implement exhibition desire to have both take place at the fair grounds at the same time. Such an exhibition would be of great benefit to the farmers of Rock county, as well as to the stock raisers and implement dealers. The best stock of the country could thus be easily brought together in the early season of the year for the inspection of those who are interested in the improvements of their herds; and the dealers in agricultural machinery could have no better opportunity afforded for the exhibition of their machines than on such an occasion, where all the farmers would be drawn together for the purpose of selecting the best. We sincerely hope that the efforts now being made for such an exhibition will prove successful, and that all interested will step forward and help the matter along.

The Weather.

REPORTED BY PIRENCE & EVANSON, DRUGGISTS.

At seven o'clock this morning the thermometer registered 19 degrees above zero, and at one p. m. at 24 degrees above zero. Partly cloudy weather, with a light snow fall early in the morning. Wind strong from the north. For the same hours one year ago the register was 37 and 42 degrees above zero.

WASHINGTON, March 15, 1 a. m.—The following are the indications for to-day: Ohio valley, Tennessee and upper lake region—Colder clearing weather, northwesterly winds, and higher pressure.

Sowing Wild Oats.

How many waste their time and resources in foolish experiments, with nasty worthless medicines that can never do them a whit of good. If you are sick and want help get a reputable remedy of established merit. The curative virtues of Burdock Blood Purifiers have never been questioned. For an ever increasing circulation or a weak stomach they are splendid. Sold by Palmer & Stevens and Sherer & Co.

Eleven Commitments in One Day.

Marshal North, of Beloit, visited the county bastille to-day, bringing in a squad of nine prisoners, six tramps to serve a sentence of five days each; two drunks, fifteen days each, and one for larceny, forty days. This squad appeared to be all new men, and hard looking ones at that. Although two were committed for drunks and one for larceny, they were all birds of the same feather.

On the 14th (Wednesday) Officer Beedle, of Beloit, was up with a drunk, and on the day before North brought one up.

To-day, Marshal Chamberlain, of Edgerton, came down with a tramp, for twenty days. He succeeded in chasing another tramp out of the little city, after a foot race of about four miles through a marsh. The last seen of him he was making for Oshkosh.

Wisconsin Legislature.

MADISON, Wis., March 15.—In the senate bills were introduced in "appropriate" \$800 to the Southwestern Wisconsin Industrial association and to the Central Wisconsin Agricultural and Mechanical association; \$3,000 to the Northern Wisconsin Agricultural and Mechanical association; \$3,480 to the State Agricultural society, and \$100 to the Wisconsin Wool Growers' and Sheep Breeders' association. In the assembly the joint resolution fixing the day for adjournment on the 1st inst. came up, and was laid over until to-day. A number of local bills were passed and others concurred in. There is a great race here over the fact that the special committee has reported in favor of the removal of the capital to Milwaukee.
